

Mini-Language Lessons Program (MLLP)

The Saskatchewan Association of International Languages (SAIL) is a provincial non-profit organization. Our mission is to preserve and promote Languages in Saskatchewan through educational and cultural programs.

SAIL's Mini-Language Lessons Program provides opportunities for language speakers to teach 8 hours of language and cultural lessons in Saskatchewan elementary schools, held annually between October to December and January to March. The program aims to educate students about Saskatchewan's ever-changing and growing multicultural landscape.

The program is offered at no cost to participating classrooms and students! It is a wonderful way to match multicultural education with the existing curriculum in a direct and meaningful way.

Applications are available at:

Application Deadline: September 16, 2024

Winter Deadline: December 16, 2024

"I am interested in the program because I see a real need in my classroom for explicit training on multiculturalism and empathy towards one another. We live in an extremely multicultural society. I believe that by learning about the cultures and languages of others, we take steps closer to reversing the *fear-of-stranger* paradigm and, in turn, learn how to be better citizens and neighbours to one another."
